

DISRESPECT, DECEIT, DISPOSABILITY

FORUM ON NYCHA NEGLECT

NYCHA and private partners are hellbent on pushing out residents. We need our own strategies to stop them. Privatized NYCHA developments are ramping up evictions, and residents across the city face inhumane conditions. It isn't a question of if things can change...things MUST change. Come to our forum to speak out about what you're facing and make plans for a summer of struggle with residents from around the city to take on NYCHA collectively.
