

CALIFORNIA NATIONAL GUARD: REFUSE UNJUST AND IMMORAL ORDERS!

2000 members of the California National Guard have been called to Los Angeles. You have not been called here to protect the people of LA. You have not been called here to defend the constitution. You have been called to LA to defend Donald Trump's shocktroopers, ICE thugs who are covering their faces while terrorizing millions of immigrants across Southern California. These ICE thugs are kidnapping peoples friends, loved ones, and neighbors. These ICE thugs are disregarding basic principles of due process and right to council. Now they want you to defend them.

People across the US have righteously confronted this deportation machine. From distributing information about raids to putting their bodies in the way of ICE agents and vehicles, protesters have drawn a line in the sand especially in Southern California. In San Diego and LA county, the masses of people have made it abundantly clear: *We are immigrants here. We welcome immigrants here.* Now the National Guard is here. Donald Trump and his pathetic, racist cabal want you to intimidate, harass, repress, and ultimately crush our protests against the kidnapping of human beings. They want you to betray your friends, your family, the people you swore an oath to serve. Will you?

ICE has been on a campaign of terror: targeting political dissidents for arrest, sexually assaulting women and deporting them to avoid being reported, and even deporting American citizens.

Will you betray your conscience for Donald Trump? Will you put your body on the line so ICE can kidnap someone's father? Will you open fire into a crowd of protesters? What will you tell your mother tonight? Are you gonna shoot protesters and make her ashamed, or are you gonna stand up to oppression and make her proud? Are you gonna betray your people and stand with ICE, or are you gonna betray ICE and stand with the people?

These orders are unjust and immoral, and you have an obligation to refuse them! Put down your riot shield, and stand with the protesters. Refuse deployment to stand with ICE kidnappers. There is a proud tradition of members of the military, just like you, refusing orders. Thousands of GI's refused to participate in a war of aggression against Vietnam in the 1960's and 1970's. Members of the National Guard refused to be used to crush protests against police killings in 2020. Now it's your turn to decide how history will remember you.

Jeff Paterson refuses deployment to first Iraq War. "I will not be a pawn in America's power plays for profit and oil in the Middle East."
