WALKOUT AND TURN UP THE HEAT ON ICE FEB 13 AT 2PM!

Police and politicians are protecting ICE. Thousands of people have been kidnapped and are suffering in detention centers across the country, long before this renewed cycle of media attention. We need to put an end to this Nightmare.

That means disrupting business as usual. We need to get organized and go on the offensive for our neighbors, for the separated families, and the thousands of people packed into the detention centers. This isn't about democrats or republicans; it's about smashing the deportation machine that has existed under both parties. Students have a long history of being on the cutting edge of movements fighting for real change, not weak concessions and reforms.

If you have seen walkouts on the news or online, and feel the irresistible urge to join one, but no one is planning it near you, be the one who starts it. If you have done this with your friends before, **do it again, and do it bigger and better.**

JOIN THE TRADITION OF STUDENT WALKOUTS!

On March 27, 2006, over 40,000 students defied campus lockdowns, opposition from teachers, principals, and school police, to walk out in protest of an anti-immigrant Act (HR 4437) that passed in the US House of Representatives. The Act would have made it a felony to be undocumented in the US and would have resulted in felony charges for anyone who helped an undocumented person stay in the country.

BE BOLD, BE BRAVE!

Students in Orange County blocked the Riverside freeway and the Santa Ana freeway, waving Mexican flags and tossing a rock that smashed the window of a CHP cruiser. In Riverside and Santa Ana, seven students and one adult were arrested after scuffles with riot police. Police used nightsticks, pepper spray and barricades to disrupt student protests and get them to disperse, but **students held firm in their defiance, hurling rocks and bottles at police.**

In the end, HR 4437 failed to pass in the Senate and the bill was killed, **a victory giving us a taste of our potential collective power.** But the ruling class responded to mass protests with an uptick in deportations under the Bush and Obama administrations that instilled fear and deflated the movement for immigrant rights.

BUILD A MOVEMENT THAT CAN CRUSH ICE!

Today, the US federal government is trying to impose the same terror: ICE is murdering anyone who dare stand against them, continuing to kidnap and hold thousands of immigrants in inhumane conditions, brutalizing them, killing them. **Let's reignite the fight against the deportation machine! We can't stop until it is fully smashed!**

**¡NO TENEMOS MIEDO!
WE ARE NOT AFRAID!**

**¡LIBERTAD PARA LOS
SECUESTRADOS!
FREEDOM FOR THE KIDNAPPED!**

**¡ALTO CON LAS DEPORTACIONES!
STOP THE DEPORTATIONS!**
